This is the first office action for application number 10/068,811, Jewelry Organizer, filed on February 6, 2002.

Election/Restrictions

This application contains claims directed to the following patentably distinct species of the claimed invention:

Group I: The organizer of figures 1-5

Group II: The organizer of figure 6

Group III: The organizer of figure 7

Group IV: The organizer of figure 8

Group V: The organizer of figure 9-11 and 13

Group VI: The organizer of figure 12

Group VII: The organizer of figure 14 and 15

Group VIII: The organizer of figure 16

Group IX: The organizer of figure 17 and 18

Group X: The organizer of figure 19

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, no claim is generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim

Art Unit: 3632

is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.
